Dear Joshua,

I have just received your letter of July 15, in which you tell me of your decision to move to Stanford (congratulations), and ask me about the possibilities of coming to Pavia in April, May and June of next year, 1959.

We shall be delighted to have you and you can be sure that your financial needs will be fully satisfied, whether you would like us to pay your full fares (\$1500), or if you will need an additional \$1500 as a contribution to your living expenses.

I am sending a copy of this letter to Boris, in case it does not reach you before you leave for France. *also*

See you in Stockholm!

*Young*
